Morgantown Solar Co-op Hosts Information Session

Posted: Sep 24, 2015 10:54 PM EST

Updated: Sep 25, 2015 9:49 AM EST

By Megan Hudock, Reporter **CONNECT**

The Morgantown Solar Co-op hosted an information session Thursday, Sept. 25, to educate the public about powering their homes with solar energy and to recruit new members.

This was the last information session, but those interested are still able to sign up until Sept. 30.

A representative from Mountain View Solar, the company selected by the co-op to install solar on members' homes, was in attendance.

The Morgantown Municipal Green Team and Downstream Strategies sponsored this meeting with the help of WV Sun.

"I think the most important thing that people should understand is that solar is here, and it's happening now. It's not something anymore that is 10 years in the future. People are actually putting solar panels on their roofs now, and there has never been a better time to do it, financially speaking. There is a tax credit, that is set to expire next year, so it's a great time to go solar," said Karan Ireland, state director of WV Sun.

WV Sun is a nonprofit that helps make solar more affordable and accessible and have saved residents \$38,500 in the past year.

If you are interested in going solar, sign up [here](#).
